ANDROID DEVELOPER

Curiosity-driven, innovative, and creative Android Developer with over 4 years of experience in developing Android applications. Certified Scrum Master and certified ATC (Advanced Android Training Consultant). Strong knowledge of Android UI designing and testing along with data collecting and analyzing. Able to solve complex application problems through critical and logical thinking. Expertise in creating a responsive design for different sizes of mobile devices. Dedicated to continuously developing, implementing, and adopting new technologies to maximize development efficiency and produce innovative applications.

TECHNICAL COMPETENCIES

Programming languages: C++, C, Html, Xml, Kotlin, Flutter, Php, Java, CSS

Microsoft Tools: MS Office (Word, Excel, PowerPoint, Outlook)

Software Tools: Android Studio, Eclipse, IntelliJ

Version Control Tools: GitHub, Bitbucket (Project Management)

WORK HISTORY

Android developer Intern, TheApplabb, Toronto June 2023 - Oct 2023

- Collaborated with cross-functional teams to gather requirements, design app features, and deliver high-quality products.
- Enhanced app performance by identifying and resolving memory leaks and optimizing UI rendering.
- Used Zira software for efficient project management, and task tracking.
- Fixed bugs in existing projects.
- Integrated ViewModel and LiveData from the Jetpack Architecture Components to manage and observe UI-related data changes.

Developer, Freelance Jan 2022 - Feb 2023

- Developed video editing and wallpaper setting apps using Java and Kotlin as a freelancer.
- Published apps on Google Play Store and ensure proper functionality and performance by checking account updates daily.
- Launched Android app that maintains a 4/5 star rating in the Google Play Store by collaborating with clients to understand their requirements and provide effective solutions.

Intermediate Android Developer, Viprak Web Solution, India Oct 2020 – Nov 2021

- Created and maintained top quality clean code Android applications with Java, Kotlin, and Flutter with Dart language.
- Worked on JSON parsing with different libraries such as Okhttp, Retrofit, and Volley.
- Maintained database of applications with Firebase database, SQLite database, and room database.
- Integrated in-app purchases and Heartland payment gateway in the application for real-time payment transactions.
- Wrote clean code using MVC and MVVM architecture and maintained using SDLC (Software development life cycle).

Junior Android Developer, SilverFox Studio, India Aug 2019 – May 2020

- Used Firebase Analytics and Firebase Crashlytics for retrieving information on real-time crashes and implemented FCM and GCM for push notifications.
- Ensured quality in all phases of app development by collaborating with user research, product management, design, and support teams.
- Developed photo collage application with editing, filtering, adding multiple effects, and other types of functionalities.
- Debugged critical application issues such as crashes, defects, memory leaks, and concurrency problems using the Android Debug function.

Junior Android Developer, Cloudus Technologies, India June 2017 – May 2019

- Implemented third-party libraries such as Glide, Picasso, GPUImageview, Spinview, Scratchview, and many others for maintaining different functionalities of applications.
- Contributed to the increase income through advertisement by implementing Google AdMob and Facebook ads across various applications.
- Integrated broadcast receiver for notifications and Google Map for route and places information in many applications.
- Prototyped and built innovative features using the Restful APIs, Gradle and android SDKs on the Android platform.

PROFESSIONAL DEVELOPMENT

Certified ScrumMaster (CSM) , Scrum Alliance	2023
Android Certified Application Developer , Advanced Training Consultants (ATC)	2023
Android Development Course , Seneca College	2023

EDUCATION

Bachelor of Engineering, Uka Tarsadiya University
